Message from the Keynote Speaker

It is indeed encouraging to note that in a strife-torn and violence - marred global scenario, when imperialist, terrorist and divisive forces are everywhere raising their ugly heads to disrupt basic harmony, values and ethical principles, Chakdaha college is going to organize an International seminar on “Indian Knowledge Systems across Eras: Heritage, Practice and Vision”.

Heritage refers to practices or characteristics that are passed down throughout the years and from generation to generation. Our ancient heritage is based on Indian Knowledge system, which starting its voyage from hoary past encompassed several areas of wisdom.

It is indeed amazing that when civilization had not even dawned in different parts of globe, our ancient seers contemplated on the mystery of the cosmic world, could invent geometrical calculation, as was evinced in the Sulvasurtas, could detect various types of diseases and their remedies which had not lost their relevance in contemporary perspective. Our philosophical systems, polity and economics are indeed our valued treasures which can act as torchbearer even today.

That apart, the moral and ethical values which have nurtured Indian psyche throughout the centuries can still show us glimmer of hope at this hour of despair and dismay.

I sincerely believe that this two-day long seminar will emerge as a forerunner in disseminating new vistas of knowledge and promote a sense of solidarity as preached by our Indian Knowledge System.

I wish this seminar a glorious success.
